PROFESSIONAL SUMMARY

Results-driven Data Analyst with hands-on experience analyzing 1,470+ employee records and 5.45M+ revenue datasets. Proficient in SQL, Excel, and Power BI — delivering interactive dashboards that reduced manual reporting time significantly and enabled data-driven decisions. Proven ability to build KPI frameworks, identify revenue leakage, and surface actionable insights from complex datasets. Seeking Data Analysis, Business Intelligence, or Reporting roles where analytical skills drive measurable business impact.

TECHNICAL SKILLS

Python	Python Data Analysis (Pandas, NumPy, Matplotlib/Seaborn), Machine Learning concepts, Artificial Intelligence, Decision Support Systems (DSS)
SQL	SELECT, JOINS, GROUP BY, WHERE, Aggregations, Subqueries, Window Functions
Excel	Advanced Formulas, Pivot Tables, Power Query, VLOOKUP/XLOOKUP, Data Cleaning
Power BI	Data Modeling, DAX Measures, KPIs, Interactive Dashboards, Data Visualization
Analytics	EDA, Variance Analysis, Profitability Analysis, Customer Segmentation, Trend Analysis
Concepts	Data-Driven Decision Making, Business Problem Solving, Performance Measurement
Soft Skills	Analytical Thinking, Problem Solving, Communication, Attention to Detail

PROJECTS

Sales Performance Analysis Dashboard | *SQL, Excel, Power BI*

- **5.45M total revenue and 2.30M total profit** Analyzed a dataset generating
- Measured 8.47% month-over-month profit growth, enabling proactive budget planning.
- Built KPI dashboard tracking Revenue, Cost, Profit, and Variance across 12 months.
- Identified top-performing products generating 95K+ profit and flagged return rates up to 9% to detect revenue leakage.
- Performed customer segmentation and monthly profitability trend analysis to guide strategic decisions.

HR Attrition Analysis | *Excel, Power BI*

- Analyzed 1,470 employee records to identify key attrition drivers and risk factors.
- Discovered that 68% of leavers earned below 5K — enabling salary-targeted retention strategies.
- Developed interactive dashboard adopted by HR team to monitor and reduce attrition risk.

Travel Campaign & AI Automation | *Power BI, Excel, AI Tools*

- Analyzed 3-month travel campaign data to identify peak seasons and high-converting customer segments.
- Discovered Bachelor-degree holders as the highest-converting segment, enabling targeted ad spend.
- Automated data cleaning and reporting workflows using AI tools, significantly reducing manual processing time.
- Identified April as peak demand month, allowing for optimized budget allocation.

Maven Fuzzy Factory — E-commerce Analysis | *SQL, Excel*

- Tracked UTM sources to distinguish high-volume vs. high-quality marketing traffic channels.
- Measured and optimized Conversion Rates (CVR) across landing pages and checkout steps.
- Identified trends in Average Order Value (AOV) and revenue growth to support strategic decision-making.

EXPERIENCE

Central Training Committee Member – YLY – Ministry of Youth & Sports *Aug 2024 – May 2026*

- Assisted in organizing and coordinating structured training programs for youth participants.
- Strengthened stakeholder communication and leadership skills in cross-functional team settings.

EDUCATION

Bachelor of Management Information Systems (MIS)

Higher Institute for Computers & MIS – Tanta 2022 – 2026 (Graduated)

Relevant Coursework: Database Management, Business Analytics, Information Systems, Decision Support Systems

CERTIFICATIONS

- Microsoft Power BI — PL-300 Course
- Analyzing Data with Excel — Microsoft
- Data Analysis Training Program — MCIT (Ministry of Communications & IT, Egypt)
- AI Career Essentials — ALX Africa
